

Section: What Is Climate?

Pretend you are entering a contest for a free trip to a place with perfect climate. To win, write a description of your idea of the perfect climate in 25 words or less. Do you know of any real place where your dream climate really exists?

Record your response in your **science journal**.

Section: The Tropics

Imagine you are a zoologist hired to design a camel and a deer exhibit for your community's new zoo. Describe the differences between a deer and a camel. Where and in what kind of climate are you most likely to find these animals? What would you have to provide for each of these animals so they would continue to flourish?

Write your exhibit proposal in your **science journal**.
